## Education

<b>G.L. Bajaj Institute of Technology and Management</b>	2021 - 2025
<i>B.Tech in Computer Science in Artificial Intelligence &amp; Machine Learning</i>	
<b>Sant AtulaNand Residential Academy</b>	2021
<i>Class 12th - PCM</i>	78.2%

## Technical Skills

**Languages:** C++, Python, JavaScript  
**Frontend:** HTML, CSS  
**Database:** SQL  
**Developer Tools:** VS Code, Git, GitHub

## Projects

### Portfolio

[Source Code](#)

- **Description:** Designed and developed a dynamic personal portfolio website to showcase my skills, projects, and professional journey. The goal was to create a visually appealing and user-friendly platform that effectively communicates my expertise and passion for web development.
- **Technologies Used:**
  - \* **HTML5:** Utilized semantic HTML for proper structuring of content and improved accessibility.
  - \* **CSS3:** Employed styling techniques, to create a modern and visually appealing design.
- **Impact:**
  - \* Strengthened my online presence and personal brand, providing a centralized platform for potential employers and clients to learn about my skills and accomplishments.

### Railway Reservation System

- **Description:** Developed a Railway Reservation System in C++ to efficiently manage and automate the reservation process for passengers. The system provides a user-friendly interface for booking, canceling, and updating train reservations.
- **Technologies Used:**
  - \* **C++:** Utilized the C++ programming language to design and implement the console-based application.
- **Key Features:**
  - \* User Authentication
  - \* Admin Control

## Volunteer
